## Staff needed!! We're almost there!!

Due to some fortunate internal reshuffling and additions to the team, we're almost back in a comfort zone for editors. (Until some disaster happens, that is.)

So, we need typesetters for **Nanba MG3** and **Impossibility Defence**, which also needs a redrawer.

Our typesetting test is at <https://goo.gl/wv7KcU>

The redrawing test is at <https://goo.gl/kqfns06>.

We are also inviting translators for **Shounen Y** and **Psychic Odagiri Kyousuke's Lies**. Our test is at <https://imgur.com/THUEauk.jpg>.

For all positions except translation, applicants should bundle their tests in a compressed file (ZIP, RAR, 7Z, whatever), upload it to a cloud service and and either post the link in our home page (<http://bit.ly/2kC40Zk>) or send it to me as a PM (Wraith at deathstallions.net). We expect them to be able to do a chapter in a week (though there are no control freaks here, we understand real life issues as well as anyone). We've had compatibility issues with CIMP files before, so we require applicants to use Photoshop.

People with experience who want to bypass the test on account of having samples of past work will have the test replaced by an actual chapter of the series they want to work on. This still means it is a test: if you fail, the chapter edited by you won't be used. It's high risk (having an entire chapter discarded because you didn't pass), high gain (working on something that will actually be used instead of a test). People without experience can't take that route, at least in principle. (If you contact me and I am in a good mood, I may let you have a try at your own risk, but don't count on it.)

We don't have editors for the projects that need translators. They are prospective projects. The first thing is to get them translated. Once we get over that hurdle, we can use existing staff to put together a bait chapter so we can fish for editors. So we won't ask successful applicants to fine away at translating before we make sure we can get steady releases. The pace in the beginning will be irregular.
